

Photo Submission Sheet

Directions: Print page scaled to 100%. Place only plastic pieces from each sample on this sheet near either edge of the ruler. Use one sheet per sample. Take a photo of this page for each sample that contains plastic pieces (you should have up to 9). Upload all photos to the Sample Submission Google Form which will be emailed out each season and available on our website. To reuse a single page for all samples, take a photo before filling out any information, convert it to a PDF and then fill out the information afterwords in the PDF. Or you could laminate the sheet and re-use it over and over!

Name:

Date sample was taken:

Location of sampling:

Sample location (circle one):	Low Tide Line	High Tide Line	Dune Line
Sample number (circle one):	1	2	3
